PIMENTO BERRY OIL

A warm, distinctive botanical oil with a characteristic spicy, clove-like aroma.

WARM • SPICY • AROMATIC

Product overview

Pimento Berry Oil is commonly associated with the allspice plant, *Pimenta dioica*. The berries are known for a rich, warm scent often described as spicy, clove-like and gently sweet. Confirm the botanical identity and plant part for the specific material being supplied.

Aroma profile

Warm, spicy and aromatic, with clove-like nuances and a softly sweet character.

Potential applications

- Perfumery and fragrance accords
- Soap and personal-care formulations
- Home-fragrance concepts
- Aromatic product development

Formulation considerations

Evaluate the oil at suitable levels for the intended application. Confirm compatibility, stability, sensory performance and applicable safety limits before commercial use.

Botanical reference

Commonly identified as *Pimenta dioica* (allspice). Botanical name, berry/leaf source, extraction method and origin must be verified against the batch documentation.

For fragrance & formulation professionals

A distinctive aromatic ingredient for considered product development.

Where it may fit

Pimento Berry Oil can be explored in warm, spicy fragrance profiles and blended with complementary woody, citrus, herbal or floral notes. Its suitability depends on the oil's verified composition, grade and the intended finished-product category.

Buyer / formulator checklist	Batch documents to confirm
• Define the intended end use and grade. • Run small-scale sensory and compatibility trials. • Confirm formulation limits for the finished product.	• Batch-specific Certificate of Analysis (COA). • Safety Data Sheet (SDS). • Botanical identity and plant part. • Extraction method and country of origin. • Relevant allergen and regulatory statements.

Handling and safety

Essential oils are concentrated materials. Follow the supplier's SDS and applicable regulations. Avoid undiluted skin application and contact with eyes. Use only in accordance with a qualified safety assessment for the intended product category. Keep securely closed and out of reach of children. Do not ingest unless the supplied grade is specifically approved for that use and directed by a qualified professional.
