HELICHRYSUM (IMMORTELLE) OIL

A distinctive botanical essential oil with a warm, herbaceous-floral aromatic profile.

BOTANICAL AROMA • FLORAL NOTES • FRAGRANCE FORMULATION

Product overview

Helichrysum oil is commonly associated with *Helichrysum italicum*, also known as Immortelle or Everlasting. It is valued in perfumery for a distinctive warm, herbaceous, honeyed and slightly hay-like aroma. Confirm the exact species, plant part, origin, extraction method and composition of the supplied product from its batch specification.

Aroma profile

Often described as warm, herbaceous, floral, honey-like and gently earthy. The scent can vary by origin, harvest, distillation and batch composition.

Potential applications

- Fine fragrance and perfumery
- Aromatic blends and fragrance accords
- Cosmetic and personal-care formulation, subject to safety review
- Product research and development

Formulation considerations

Evaluate a representative sample in the intended product base. Confirm compatibility, stability, sensory performance and appropriate use levels through qualified formulation and safety assessment.

Botanical identity to verify

Confirm whether the supplied material is *Helichrysum italicum* essential oil. Do not assume species, purity, geographic origin or composition from the common name alone.

FOR FRAGRANCE & FORMULATION PROFESSIONALS

Product evaluation, quality checks and responsible handling.

Quality and evaluation checklist

Before selecting the material, review technical documentation and test a representative sample in the intended product base. Confirm appearance, aroma, composition, compatibility, stability and packaging suitability under relevant storage conditions.

For buyers and formulators	Batch documentation to request
• Confirm intended application and grade. • Review a representative sample. • Assess compatibility and stability. • Set use levels only after a suitable safety review.	• Batch-specific Certificate of Analysis (COA). • Safety Data Sheet (SDS). • Botanical identity and plant part. • Extraction method and country of origin. • Composition and relevant regulatory declarations.

Handling and safety

Essential oils are concentrated materials. Follow the supplier's SDS and applicable regulations. Do not apply undiluted to skin or ingest. Use only in applications supported by the verified grade and a suitable safety assessment. Avoid contact with eyes and keep securely closed and out of reach of children.
