INDUSTRIAL APPLICATIONS

GINASUL TWS

APPLICATION AREAS

Based on the supplied product reference, Ginasul TWS is positioned for the following industrial use areas:

Application	Description from supplied reference
Wool scouring	Listed as an application for wool scouring.
Textile processing	Listed for use in textile processing.
Surfactants and wetting agents	Listed as an industrial application area.

TECHNICAL DOCUMENTATION & ORDER ENQUIRIES

The supplied reference does not provide a full technical specification. Before selecting or using the product, request and review the current Technical Data Sheet (TDS), Safety Data Sheet (SDS) and, where applicable, a batch-specific Certificate of Analysis (CoA). Confirm product grade, recommended dosage, compatibility, operating conditions, packaging, storage and handling requirements directly with the supplier.

SPECIFICATION STATUS

No CAS number, composition, concentration, pH, density, dosage, certification or performance value is stated in this brochure because these details were not supplied or independently verified.
