GINASUL 6836

PRODUCT BROCHURE | SIHAULI CHEMICALS

PRODUCT OVERVIEW

Ginasul 6836 is the product name shown in the heading of the supplied reference image. The same image's descriptive text refers to “Ginasul TWS” and describes a clear liquid for wool scouring and textile processing. Because the reference uses two different product names, confirm whether these descriptions apply to Ginasul 6836 before relying on them for procurement or technical use.

Product heading	Ginasul 6836
Other name appearing in reference	Ginasul TWS — requires confirmation
Application text in reference	Wool scouring; textile processing; surfactants and wetting agents
Email	sales@sihaulichemicals.com
Website	www.sihaulichemicals.com
Phone	+91 9579137783

Contact Sihauli Chemicals for product identity confirmation, availability and commercial enquiries.

APPLICATIONS & PROCUREMENT

GINASUL 6836

APPLICATION AREAS SHOWN IN THE REFERENCE

The supplied artwork lists the following industrial application areas. These statements are reproduced from the reference and are not independently verified for the Ginasul 6836 designation.

Application area	Reference wording
Wool scouring	Listed as an application
Textile processing	Listed as an application
Surfactants and wetting agents	Listed as an application

TECHNICAL DOCUMENTATION

Before purchase or use, request the current Technical Data Sheet (TDS), Safety Data Sheet (SDS) and, where applicable, a batch-specific Certificate of Analysis (CoA). Confirm the exact product name, chemical identity, composition, grade, recommended dosage, compatibility, operating conditions, packaging, storage and handling requirements with the supplier.

IMPORTANT PRODUCT-NAME CHECK

The reference image heading says “GINASUL 6836”, while its paragraph and container label say “Ginasul TWS”. This brochure preserves the heading product name but flags the discrepancy rather than assuming the two names are interchangeable. Please verify the correct product designation and application claims before distribution.
