APPLICATIONS & PROCUREMENT

GINASUL 68 N | AOS NEEDLES

APPLICATION AREAS SHOWN IN THE REFERENCE

The supplied artwork lists the following application areas for the product:

Application area	Reference description
Wool scouring	Listed as an industrial application
Textile processing	Listed as an industrial application
High-quality shampoos	Listed as an industrial application

TECHNICAL & REGULATORY DOCUMENTATION

The reference mentions approvals for MITI, AICS and DSL. These regulatory statements have not been independently verified and should not be treated as confirmation of registration, approval or market access. Request the applicable documentary evidence and confirm its scope, jurisdiction and current validity before making regulatory claims.

Before purchase or formulation, request the current Technical Data Sheet (TDS), Safety Data Sheet (SDS) and batch-specific Certificate of Analysis (CoA). Confirm chemical identity, CAS number, active matter, moisture, pH, solubility, dosage, compatibility, packaging, storage and handling requirements with the supplier.

IMPORTANT PRODUCT-NAME CHECK

The artwork heading says “GINASUL 68 N”, but the container label appears to say “Ginasul 46N AOS Needles (94% min)”. Confirm the correct product code and label designation before distributing this brochure or placing an order. The two designations are not assumed to be interchangeable.
