Contact Sihauli Chemicals for product availability, packaging details and commercial enquiries.

APPLICATIONS & PROCUREMENT

GINASUL 36468 | LIQUID AOS SURFACTANT

APPLICATION AREAS SHOWN IN THE REFERENCE

The supplied product artwork lists the following application categories:

Application	Reference description
Personal care	Listed as an application category
Hair care	Listed as an application category
Bubble baths	Listed as an application category
Liquid detergents	Listed as an application category
Face wash	Listed as an application category

TECHNICAL DOCUMENTATION

The reference image does not provide a complete technical specification. Before formulation or use, request and review the current Technical Data Sheet (TDS), Safety Data Sheet (SDS) and, where applicable, a batch-specific Certificate of Analysis (CoA). Confirm chemical identity, CAS number, active matter, concentration, pH, density, viscosity, recommended dosage, compatibility, packaging, storage and handling requirements with the supplier.

APPLICATION SUITABILITY

The listed personal-care and household-cleaning categories are reproduced from the supplied artwork and are not a substitute for formulation testing or regulatory review. Confirm suitability, permitted use levels, ingredient compliance, stability and safety for each finished-product application before commercial manufacture.
