BUTYLATED HYDROXYTOLUENE (BHT)

PRODUCT BROCHURE | SIHAULI CHEMICALS

PRODUCT OVERVIEW

Butylated Hydroxytoluene (BHT) is an antioxidant used to help limit oxidation in suitable formulations. It can help protect susceptible ingredients from oxidative degradation and support product stability. The supplied reference image shows the product in a blue drum labelled 25 kg; confirm the actual packaging and net weight for the offered lot before ordering.

Product name	Butylated Hydroxytoluene
Abbreviation	BHT
Product category	Antioxidant
Packaging shown	Blue drum; reference label indicates 25 kg (confirm per lot)
Email	sales@sihaulichemicals.com
Website	www.sihaulichemicals.com

Contact Sihauli Chemicals for availability, grade details and commercial enquiries.

APPLICATIONS & PROCUREMENT

BUTYLATED HYDROXYTOLUENE (BHT)

POTENTIAL APPLICATION AREAS

The following are broad formulation areas in which antioxidant ingredients may be considered. Suitability of this specific BHT grade must be confirmed with the supplier and the finished-product formulator.

Application area	Considerations
Personal care products	Confirm ingredient permissions and suitable use level for the intended product and market.
Hair care products	Check compatibility, formulation stability and applicable ingredient restrictions.
Cosmetic formulations	Review the current specification, safety information and local cosmetic rules.

TECHNICAL DOCUMENTATION

The supplied image does not provide a complete technical specification. Before purchase or formulation, request the current Technical Data Sheet (TDS), Safety Data Sheet (SDS) and batch-specific Certificate of Analysis (CoA). Confirm chemical identity, CAS number, assay/purity, appearance, melting range, solubility, recommended use level, compatibility, packaging, storage and handling requirements with the supplier.

REGULATORY & SAFETY CHECK

BHT use conditions and permitted concentrations can differ by product type and destination market. Verify applicable ingredient restrictions, labeling requirements and current regulatory status before commercial formulation or making compliance claims. This brochure is marketing information only and is not a substitute for a TDS, SDS, CoA or regulatory advice.
