SANDALWOOD ESSENTIAL OIL

QUALITY & APPLICATION REVIEW

The supplied reference image does not state a specific application, composition, concentration, recommended use level or technical grade. Suitability depends on the exact botanical material, chemical profile, intended product, exposure route and destination-market requirements. Any proposed use should be assessed by a qualified formulator using current supplier documentation.

Information to confirm	Recommended documentation / check
Botanical species and plant part	Supplier specification and traceability records
Country / region of origin	Supplier declaration and sourcing documents
Extraction method	Current product specification
Chemical profile / composition	GC-MS report, where available
Identity and batch quality	Batch-specific Certificate of Analysis (CoA)
Safety and handling	Current Safety Data Sheet (SDS)
Storage and shelf life	Current Technical Data Sheet (TDS) and supplier label

SAFETY & REGULATORY CHECK

Do not infer therapeutic, medical, skin-safety or efficacy claims from the product name or reference photograph. Before commercial use, confirm the exact ingredient identity, intended use, applicable ingredient restrictions, labeling requirements and safe handling instructions from current supplier and regulatory documentation. This brochure is introductory marketing material and is not a substitute for a TDS, SDS, CoA or formulation assessment.
