ANETHI OIL

DILL SEED ESSENTIAL OIL | PRODUCT BROCHURE
SIHAULI CHEMICALS

PRODUCT OVERVIEW

Anethi Oil is commonly used as a name for dill oil, generally associated with the botanical species *Anethum graveolens*. The generated product artwork presents it as a seed-derived essential oil. Confirm the botanical part (seed or herb), extraction method and exact grade with the supplier before describing or purchasing a specific lot.

Product name	Anethi Oil (Dill Oil)
Botanical reference	Anethum graveolens (confirm with supplier)
Product type shown	Essential oil (visual/product-name description)
Plant part	Seed-derived is a common interpretation; verify the supplied grade

PRODUCT INFORMATION

ANETHI OIL | DILL SEED ESSENTIAL OIL

APPLICATION & SUITABILITY

The supplied product name and artwork do not specify a validated application, composition, concentration or recommended use level. Essential-oil suitability depends on the exact botanical material, chemical profile, intended product, exposure route and destination-market requirements. Any use in personal-care, fragrance or other formulations should be assessed by a qualified formulator using current supplier documentation.

Information to confirm	Recommended documentation / check
Botanical identity and plant part	Supplier specification and traceability records
Extraction method and origin	Supplier declaration / product specification
Chemical profile / composition	GC-MS report, where available
Identity and batch quality	Batch-specific Certificate of Analysis (CoA)
Safety and handling	Current Safety Data Sheet (SDS)
Storage and shelf life	Current Technical Data Sheet (TDS) and supplier label

SAFETY & REGULATORY CHECK

Do not infer therapeutic, medical, skin-safety or efficacy claims from the product name or promotional artwork. Before commercial use, confirm exact ingredient identity, intended use, applicable ingredient restrictions, labeling requirements and safe handling instructions from current supplier and regulatory documentation. This brochure is introductory marketing material and is not a substitute for a TDS, SDS, CoA or formulation assessment.
